CFS revolutionizes Colors

HICOLOR v2.0

The success of the first version motivated us to go a step further with the version 2.0 of Hicolor. By making it vitrified and with smooth matte finish enables it to be used on a wider scope of applications, especially for floors and walls.

This collection is inspired by the outside world which acts as the perfect trigger for beautiful colors. These colors are always changing providing a wide variety of palettes to play and experiment with.

This collection of versatile and enduring colors ranges from purples and reds, to warm neutrals, on to cool blues & greens and contemporary white and black. This range is a well versed combination of tertiary and quaternary colors depicting optimism, energy and sophistication.

Different colors provide different psychology to everyday life, varying from purity to neutrality, from timelessness to comfort and from harmony to tranquillity.

Fashion is all about changing trends and Ceramic Fashion Studio keeps amusing its customers with launching innovative products on a regular basis.

Ceramic Fashion Studio *has worked to recreate those feelings into architectural and contemporary works*. The result is a perfect blend of modern and dynamic mood, a collection that brings out the best in any ambience and location setting.
