GLAZED VITRIFIED TILES
600x1200mm

ABOUT US —

The roots of Verona Tiles go back to 2007 when we started one of the first Vitrified tile manufacturing units in Morbi town of India. We were the pioneer in vitrified tile production by the nano soluble salt technology. In 2014, we were one of the early adopters of digital printing technology in Vitrified tile and we started with the Glazed Vitrified Tile production.

In 2021, the company decided to relaunch the collection of Glazed Vitrified Tile with the use of the latest machinery and innovations in surface applications. At Verona Tiles, we want to revolutionise the concept of designs, surfaces and various applications done on the Vitrified tile to offer new trends to our customers around the world.

We aim to deliver our customers with the best options available to serve different markets both in India and worldwide.
